Performance data includes back-test results prior to August 21, 2018

The ROBO Global Artificial Intelligence Index Series' objective is to provide investors with comprehensive, transparent and diversified benchmarks representing the global value chain of Artificial Intelligence technologies.

The Case for THNQ

- INDUSTRY EXPERTS** specializing in robotics, artificial intelligence (AI), and healthcare technologies whose mission is to define and identify the universe of artificial intelligence for investors.
- GLOBAL REVENUES** from the Generative AI market could exceed \$1 Trillion by 2032, with AI infrastructures projected as the largest spend area, as it grows into different markets.
- MULTI-CAP** index providing diversified access to large-, mid- and small-cap companies with minimal overlap with most broad market indices.

Price Return	1.1%	28.5%	1.5%	38.2%	0.6%	12.8%	20.5%

ROBO Global Industry Classification

To date, we have identified 11 subsectors of suitable product and technology maturity to the artificial intelligence theme. These subsectors carry high growth and earnings potential. On a regular basis, we screen our database to identify companies that fit into these subsectors, meet a minimum revenue threshold, and satisfy our ESG Policy. Each company is assigned a "Theme Score" based on the company's level of revenues, market and technology leadership, and investments. These scores range from 1-100 with 100 representing significant levels of revenues and leadership. A company must have a minimum Theme Score of 50 to be considered for inclusion in the index.

Top 10 Constituents
